

CATALOGUE

Kits for **BN™ Series** and **Atellica® neph 630** Nephelometers

This catalogue lists the Kits (consisting of reagents, calibrators and controls) intended for testing Specific Proteins on *Siemens Healthcare's BN™ Series* and *Atellica® neph 630* Nephelometers (*BN™* and *Atellica®* is a registered trademark of *Siemens Healthcare Diagnostics Products GmbH*, Marburg, Deutschland).

→ Free Light Chains (FLC) - Urine

Particle-enhanced Nephelometric Immunoassays (PENIA), traced to the **European Reference Material** (code: ERM® - DA470k/IFCC) to the *Institute for Reference Materials and Measurements (IRMM)*, using the formula of M.M. Lievens.

kλoneus® - U-FLC - BNs Kit

REF TD-42505 ▽ 100+100 test

GTIN/UDI-DI: 8434477 20106 6

Siemens Health. SMN: **11309431**

Contains Free Kappa Reagents, Free Lambda reagents, Calibrator and Controls (3 levels)

→ C1q Complement

Particle-enhanced Nephelometric Immunoassay (PENIA), standardized to the *WHO's International Ref. Preparation for human serum complement Factors* (NIBSC's code: W1032)

N Latex C1q Kit

REF TD-42550 ▽ 100 test

GTIN/UDI-DI: 8434477 203012 1

Siemens Health. SMN: **10873731**

Contains Reagents, Calibrator and Controls (2 levels)

→ C5 Complement

Nephelometric Immunoassay (NIA), standardized to the *WHO's International Ref. Preparation for human serum complement Factors* (NIBSC's code: W1032).

N C5 Kit

REF TD-42570 ▽ 100 test

GTIN/UDI-DI: 8434477 20413 5

Siemens Health. SMN: **10873730**

Contains Reagents, prediluted Calibrators (2 levels)

→ IgD Immunoglobulins

Particle-enhanced Nephelometric Immunoassay (PENIA), standardized to the **British Research Standard for IgD** (code: 67/037) (NIBSC - a WHO Laboratory for Biological Standards).

N Latex IgD Kit

REF TD-42650 ▽100 test

GTIN/UDI-DI: 8434477 20812 6

Siemens Health. SMN: **10873729**

Contains Reagents, Calibrator and Controls (2 levels)

→ Factor B (C3 Proactivator)

Nephelometric Immunoassay (NIA), standardized to the WHO's **International Ref. Preparation for human serum complement Factors** (NIBSC's code: W1032).

N C3Pa Kit

REF TD-42720 ▽100 test

GTIN/UDI-DI: 8434477 21208 6

Siemens Health. SMN: **10873732**

Contains Reagents, Calibrator and Controls (2 levels)
